2. BACKGROUND

2.1 INTRODUCTION

The Local Government Municipal Property Rates Act (Act no 6 of 2004) as amended from time to time requires a municipality to develop and adopt a rates policy consistent with the Act on the levying of rates on rateable property in the Municipality.

Property rates are the most reliable source of revenue for the Municipality. Services financed from rates include installation and maintenance of streets, roads, sidewalks, lighting, and storm water drainage facilities, building and operating clinics, parks, recreational facilities and cemeteries. Property rates revenue is also used to fund municipal administration such as computer equipment, stationery, and costs of Governance, such as Council and community meetings, which facilitate community participation on issues of Integrated Development Plans (IDPs) and municipal budgets.

The Council has resolved, in compliance with the provision of the Act, to impose a rate and as a consequence, this rates policy has been developed within the parameters of the applicable legislation relating to property rates.

2.2 GUIDING PRINCIPLES

The following principles will ensure that the Municipality treats persons liable for rates equitably in terms of the Act:

- (a) Ratepayers with similar properties will pay similar levels of rates
- (b) The ability of ratepayers to pay their rates will be taken into account by the Council in dealing with the indigent's ratepayers. The municipality will provide relief measures through exemptions, reduction and rebates.
- (c) The determination of the tariffs and the levying of rates must allow the Council to promote local, social and economic development.
- (d) The municipality will in amending this policy commits itself to a process of community participation.

2.3 STRATEGIC FOCUS

In determining the rates, exemptions, rebates and reductions, the Council may consider the following:

- (a) the impact of rates on the community,
- (b) the impact of rates on business
- (c) the Integrated Development Plan (IDP) of Council
- (d) the impact of rates on the Local Economic Development (LED) strategy of the Council
- (e) the impact of the new rating system on poor residential households and agricultural communities
- (f) when determining the rates on properties the following aspects must be taken into account namely:
 - (i) the effects of rates on the poor, including appropriate measures in order to alleviate the rates burden on them; and
 - (ii) the effect of reaching the objectives set out in paragraph 2.4 of this policy.
- (g) in developing or amending this policy, the Council commits itself to a process of community participation as envisaged in section 4 of the Act and chapter 4 of the Municipal Systems Act, 2000 (Act No 32 of 2000) (MSA). In addition to the requirements laid down in the MSA, the Council will engage interested parties and structures, such as ratepayer organisations, directly in the process of community participation. In addition, use will be made of established community consultation structures, such as Ward committees, to ensure thorough participation with regard to the afore-mentioned process.

2.4 OBJECTIVES OF THE POLICY

The key objectives of the policy are to:

- (a) ensure that all owners of rateable property are informed about their liability to pay assessment rates;
- (b) specify relief measures for ratepayers who may qualify for relief or partial relief in respect of the payment of rates through exemptions, reductions and rebates contemplated in section 8 of this policy and section 15 of the Act;
- (c) set out the criteria to be applied by the Council if it increases rates and levies differential rates on different categories of property;
- (d) provide for categories of public benefit organisations, approved in terms of Section 30(1) of the Income Tax Act, 1962 (Act no 58 of 1962) as amended, which ratepayers

are eligible for exemptions, reductions and rebates and therefore may apply to the Council for relief from rates;

- (e) recognise the state, organs of state and owners of public service infrastructure as property owners;
- (f) encourage the development of property;
- (g) Ensure that all persons liable for rates are treated equitably as required by the Act.
- (h) determine the level of increases in rates
- (i) Provide for exemption, rebates and reductions.

3. ANNUAL OPERATING BUDGET AND POLICY REVIEW

The Council must annually consider the levying of rates during the annual budget process when it is tabled in the council in terms of section 16(1) of the Municipal Finance Management Act and if necessary, amend its rates policy. Any amendments to the rates policy must take into account public comments and inputs.

In determining the level of increases in the rates, the criteria to be applied include the following:
